

ALB-220 Automatic Top & Bottom Labelling Machine

Application:

This labeler is designed for top and bottom labeling on flat products at the same time.

Features:

1. Equipped with two labeling heads;
one for top labeling, and the other for bottom labeling.
2. Machine main construction by Stainless Steel #304.
3. PLC combined with touch screen control system.
4. High accuracy labeling, ± 1 mm tolerance.
5. Servo motor driven labeling head,
labeling speed is automatically synchronized with conveyor speed
ensuring high speed and quality labeling.

Model	ALB-210 / ALB-220 / ALB-212 / ALB-213
Label Height/Width	A: 10 - 120mm; B: 10 - 180mm
Label Length (Unit)	10 - 250mm
Product Dia./Width	15 - 160mm
Labelling Speed	12 - 35 m /mins
Reel Inner/Outer \varnothing	within 76mm / 360mm
Machine Dimension	1450L x 700W x 1550H
